Heart-pumping action in a bold, dynamic body

Riding on the knowledge that has gone into refining the performance of the Lancer Evolution, the Colt Version-R is equipped with the ultimate turbo engine technology along with Mitsubishi's new generation of lightweight, high-performance MIVEC engines.

The 1.5 litre 16-valve intercooled DOHC turbocharged MIVEC engine pumps out 154 bhp for superb response and powerful performance, giving you a ride that will push the boundaries of the sporting experience like never before.

Meet your match in fun and agility

Introducing the Mitsubishi Colt, a funky city car that's versatile enough for your active lifestyle. Its sleek, compact body makes it easy for you to zip around town and get into small spaces, and yet it has a sporty and fun side to turn heads on the road.

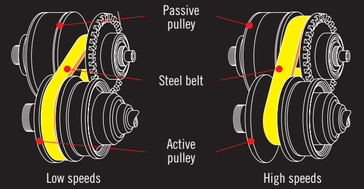
Sporty looks aside, that compact body holds an enhanced MIVEC aluminium engine and CVT, so the Colt can easily keep up with your super-busy lifestyle, be it for work or play.

1.5 litre MIVEC engine

77(105)/6000 kW (PS)/rpm

14(14.4)/4000 N.m(kg.m)/rpm

Gear ratio varies according to the diameter of the steel belt connecting drive and driven pullies.



Speed ahead with a faster, more eco-friendly ride

Finally, there's an engine that's as good for the environment as it is for you. Mitsubishi's new MIVEC aluminium engine was designed to balance your needs with low fuel consumption, while ensuring it's environmentally friendly.

The Colt's sporty style and highly responsive performance is complemented by the INVECS-III CVT (stepless speed control), so you can be sure of a smooth and easy ride, wherever your drive may take you.

INVECS-III CVT

Specially modified for the Colt, Mitsubishi's renowned Continuously Variable Transmission is electronically integrated with the MIVEC engine to ensure high-efficiency transfer of engine power for smooth and agile road work.

Some equipment may vary in appearance and/or availability according to market.

Feels as good as it looks

The Colt may be compact, but the interior space is luxuriously spacious, giving you greater comfort when you're zipping around town. The clean lines and sensuous planes create an intimate feel around you, while the plush seats are perfect for indulging your family and friends. With the Colt, every journey you go on promises to be a joy, because you can never have too much of a good thing.

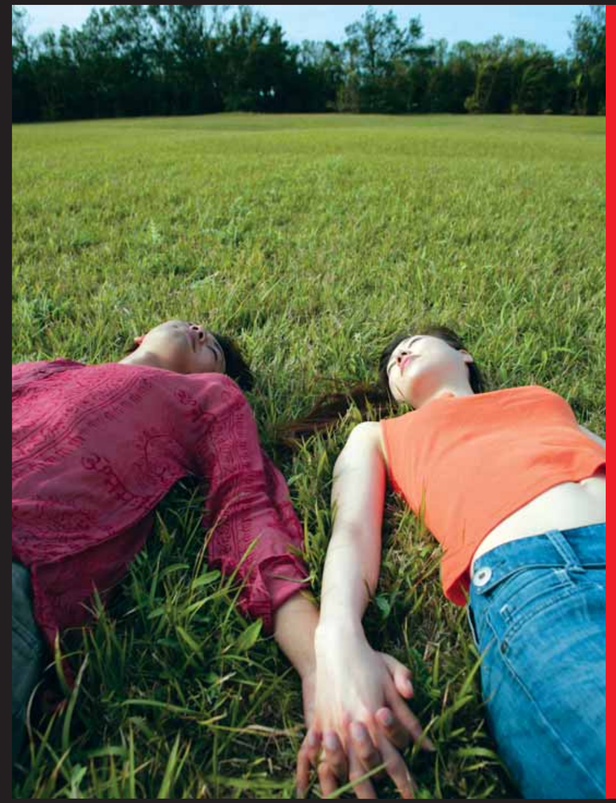
Cool Interior

Take to the roads in sporty style

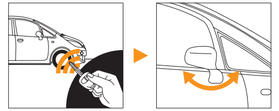
The Colt's sporty good looks extend inside: with a sleek instrument panel and high contrast meters with blue illumination – to enhance your driving experience. Everything within is ergonomically designed with sculptured surfaces, making even the smallest detail a work of art.

ETACS (Electronic Time and Alarm Control System)

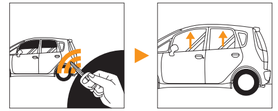
Mitsubishi's proprietary intelligent control system, ETACS, brings safety, confidence and security to you and your passengers.



Multi-mode keyless entry system

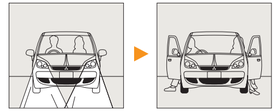


Folding door mirrors
If you forget to retract the door mirrors, you can use the remote controller to do so from outside your car.



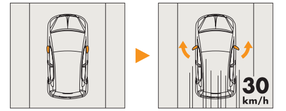
Power windows
Permits you to securely close all windows from outside the car.

Convenient driving support functions

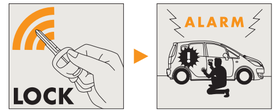


Automatic headlamp turn-off
Even if you forget to switch off your headlamps when turning off the ignition, opening the driver's door will automatically turn them off for you, saving valuable battery power.

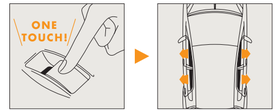
Automatic headlamp control
Failing evening light or the dark interior of a tunnel automatically activates headlamps, turning them off again when re-emerging into daylight.



Automatic door mirror-unfold function
Automatically unfolds door mirrors when vehicle speed exceeds 30km/h.

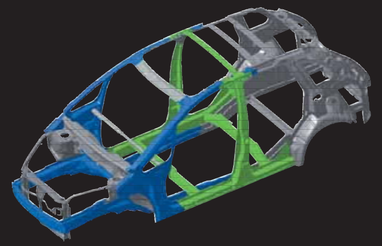


Security alarm
After locking the doors using the keyless transmitter, re-opening them by any method other than keyless entry will automatically and simultaneously activate the alarm buzzer, sound the horn and flash the hazard lamps.



One-touch power windows
One push of the driver's-side master power-window switch smoothly opens or closes all power windows.

Car speed compliant front wipers
Intermittent front wipers adjust their speed according to the forward velocity of the car.



Stay safe no matter how far you travel

Colt's new design platform combines straight-frame outer rails with octagonal-section cross members and spherical-section doors and floor, for reassuring body stiffness and crash-worthiness. Active and passive safety systems ensure global safety standard occupant protection.

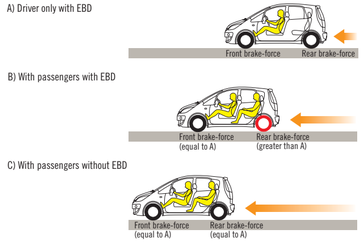
Some equipment may vary in appearance and/or availability according to market.

Active safety

Active safety systems, which help the driver avoid accidents, include halogen high-mount brake light, anti-trapping power windows and available anti-lock brakes.

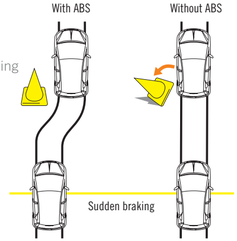
EBD effect (stopping distance with identical braking force)

With multiple passengers, EBD increases real-wheel brake force.



ABS with EBD Brakes

Anti-locking (ABS) brakes use computer-integrated EBD (Electronic Brake-force Distribution) to ensure controlled, linear braking regardless of road conditions or cargo load.



Passive Safety

Rigid body construction, SRS front airbags and anti-intrusion brake pedals are some of the passive safety measures protecting occupants in the event of a collision.

Standard Air Bags

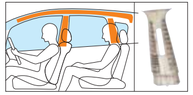
SRS front airbags, when used in conjunction with ELR seatbelts, offer driver and front passenger maximum protection in frontal collisions.

Force Limiter with Pretensioner

On impact, the pretensioner instantly takes up any seatbelt slack, the force limiter then easing seatbelt tension to help prevent inadvertent seatbelt injuries.

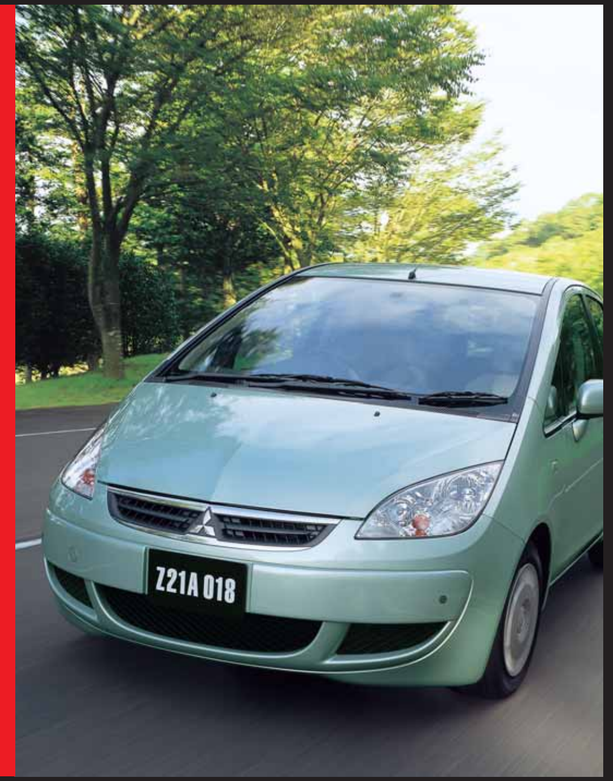
Impact-absorbing Measures

Roof pillars and linings are filled with impact-absorbing materials to increase cabin safety.



Anti-intrusion Brake Pedals

Anti-intrusion brake and foot-operated parking brake pedals help prevent ankle and leg injuries to the driver in frontal collisions.



Convenient utility

The Colt is designed with many thoughtful storage compartments for your everyday use.

Vanity mirrors on driver- and passenger- side

Multi-purpose small compartment to hold smaller items

Front passenger-side undertray compartment

Dashboard compartment on passenger-side

Twin cup holders at centre console

Door pockets on both driver- and passenger- side

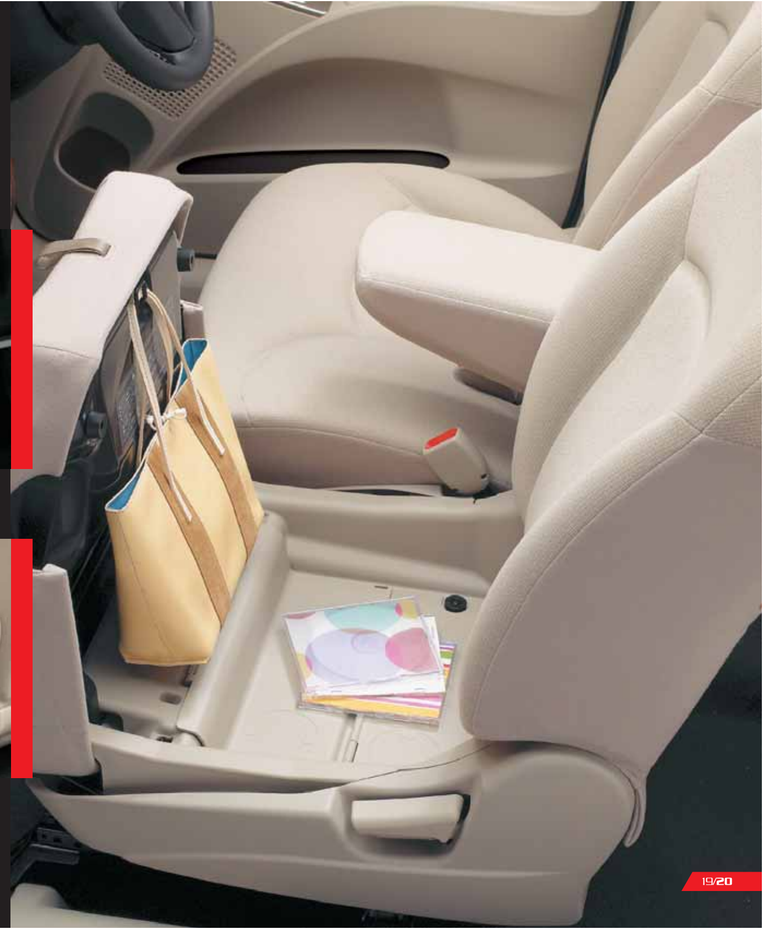
Seatback hook

Driver's under-dash tray

Door pocket bottle holders on both driver- and passenger-side

Passenger-side seatback pocket

Some equipment may vary in appearance and/or availability according to market.



A perfect fit for every lifestyle.

Stretch out and relax. Sit back and watch the view as you go. No matter what you do, you can now do it in comfort with versatile seats that can be arranged in any configuration to fit all your needs.

1 | Flat Seat

Collapse the front seatbacks and recline backseats so you can sit back and relax

2 | Seatback collapsed forward

Collapse the backseats forward to create a wide luggage space. This is convenient for loading large objects

3 | Cargo mode

Collapsing the backseats and then folding them forward creates a flat area for storing big and odd-sized objects.

Some equipment may vary in appearance and/or availability according to market.

Committed to outstanding customer satisfaction. That's our promise to you.

Why choose Mitsubishi/Cycle & Carriage?

When you drive away with your new Mitsubishi, it's not the end of the road for us, but merely the beginning of a relationship. That's because at Cycle & Carriage, we believe in providing you with a comprehensive level of service, from sales to after-sales care.

Our commitment to bringing you the best begins at our showrooms, where our friendly sales consultants will assist you every step of the way. That's not all. To ensure that your Mitsubishi stays in the best condition, our highly trained technicians can offer you a wide range of services – from motor repairs to body paint work, grooming and maintenance services. And while you wait for your car to be serviced, make your way to our cosy Customer Lounge for refreshments and a wide range of entertainment.

Leading-edge technical support

Our service centres are equipped with the latest diagnostic equipment and our trained technicians are on hand to recommend preventative measures to help you save time and money. You and your passengers' safety will also be assured as this enhances your car's reliability.

Only genuine parts will be used for your Mitsubishi, and we follow a maintenance schedule recommended by our manufacturers. Our service centres will also offer a structured servicing programme with comprehensive checks to maintain an optimal performance for your car. We'll also give you a warranty for your repairs and parts.

Our comprehensive after-sales service includes:

- **Fast Lane**
  Our "Fast Lane" drive-through concept, the first of its kind in Singapore, allows you to check-in your car efficiently and conveniently. Simply book a slot with our Customer Service Centre.
- **Night Deposit Check-in**
  With this service, you can now send your car in for servicing and maintenance after normal service hours. Just drive to the Service Centre, fill in a simple form and hand it to the security post with the key. It's that easy!
- **Midnight Express**
  For your convenience, we have extended our service hours till midnight on Thursdays. So now you can drop off your car even after a late night out.
- **Taxi Booking & Shuttle Service**
  Our air-conditioned shuttle service (only available at Pandan Gardens) will ferry you to the nearest MRT station during the morning peak hours after you have checked your car in for servicing. Alternatively, we can book a taxi upon your request.
- **Warranty**
  We offer you a warranty for 36 months or 100,000km, whichever comes first. All parts used are 100% genuine Mitsubishi parts, which are manufactured to ensure optimal performance in your car.

  All these elements ensure more peace of mind for you and better resale value for your vehicle.
